

PLATE GLASS DIDN'T WORRY THIS BURGLAR

Lifts It Out and Proceeds to
Rob Drug Store on Peach-
tree Street.

According to Frank Campbell, clerk in the Cox Prescription shop on Peachtree Street, the burglar who stole a store in a unique manner Sunday night:

Called from his bed at 4 o'clock Monday morning, Mr. Campbell and a telephone man who had out a clever crib cracker had not only robbed the cash register but had also broken the gained entrance by bodily taking a large plate glass in the front door, through which the burglar, the day before, had gained complete ingress to the establishment.

On arrival at the scene Mr. Campbell found the door open and the burglar still in the store. After a short time, however, he had then carefully re-entered the store and closed the door.

The thief, who was armed by Patrolman Scott, working that beat, who is also a member of the police force, and a sergeant.

According to Mr. Campbell, it must have taken the thief over half an hour to get into the store, needless the time consumed in the preparation of the robbery and making a successful get-away.

The burglar, who had no identification of the robbery Monday.

CLASS WAR IN BRITAIN DESCRIBED BY MANN

St. Louis, September 29.—The class war being fought between labor and capital in the United Kingdom is not only a political question, but it is also a social question, and the working classes, the better the effort of serious-minded men, fully conscious of the fact, are more and more definitely confident of their own ability to win.

Tom Mann, the British labor leader, who is here on a speaking tour, is giving in a local amusement park tonight.

Standards in the lives of workers in the United Kingdom have been raised more by direct action than by any other method in the past twenty years, by parliamentary action and by strikes.

Similar action is being taken in the United States and in this country, the strikes being called by the American Federation of Labor than have been taken in the United Kingdom in the last twenty years.

The British world is confronted with the astounding fact that an economic revolution is taking place. As a favor to the revolutionists I am glad with the hearty reception I have received here, and with the great freedom of speech

In a Hot Card, J. N. Renfroe, Candidate for Council, Replies to Statements by His Opponent

My opponent for council in the First Ward, Mr. Alverson, in a card printed in the afternoon newspapers of the city yesterday, gave the voters of the ward an excellent opportunity to judge his capacity as a public official. In the first public statement he ever uttered the only intelligent idea he has is the one stolen bodily from my statement in the Sunday morning papers in reference to proposal to start a fund for the Spring street and Alabama street viaducts and the Davis street school.

I ask the voters of the ward to compare our two statements and see for themselves if my charge is not true, and to then consider carefully if his mental capacity is such that he ought to be allowed to stand in the council of our city as their representative.

Do you want as your councilman a man who thinks out plans for the growth and progress of our section, or do you want one who merely squeaks "Me too!" when the other's plans are published?

I want to take this opportunity to call attention to some other significant facts in regard to the campaign that is being waged against me. He says I was employed by the United States Gas company. I never heard of any such company, and I don't believe any other man in this town ever heard of it until it was sprung in this foolish and misleading card of Alverson's.

I have lived in the First Ward for thirty-five years and at the same address, and

practically everybody of any consequence in the ward knew all the time by whom I was employed, and they knew also that for the past five years I have been in business for myself as a building contractor with offices in the Gould building. By 8 o'clock tonight he will know by the count of the votes that I am no stranger to the people of the First Ward, and that his little attempt to make it appear that I am has gained him nothing.

He Claims to Be a Prohibitionist.

To save my life I can't see how he expects to fool any body into voting for him by claiming to be a prohibitionist when it is so well known that he is being backed by a big beer firm; or how he hopes to succeed by stating to Mayor Woodard's friends that he is a friend of Woodward, while to the mayor's enemies he poses as an enemy of Woodward.

Perhaps it is the same line of reasoning that brought him to have a "blind tiger," who was only recently paraded out of the chain-gang after 12 months' sentence, to work for him all over the ward and to circulate false reports about myself.

Now, with these facts before the voters of our ward, I am contented to place my candidacy in their hands and await their decision at the polls, that I feel confident already that I shall be elected by an overwhelming majority.

J. N. RENFROE.

which has been allowed me. I had thought it might be different. The immediate aim of the movement and I am advocating is the reduction of the hours of labor. I am a member of the I. W. W. and a half-hour a day will eliminate unemployment.

SAVES BROTHER'S LIFE BY BURNING POISON FROM SNAKE'S BITE

Using heroic methods, Mr. Bowes yesterday afternoon saved the life of his brother, T. R. Bowes, when he found the young man bitten by a cobra.

The wounded man was hurried to the hospital, where a dangerous physician expected him to die. The doctor said, "They say he would have had small chance. The burn almost stopped the flow of blood but did not eliminate the poison.

The brothers were hunting near Oakland, I. C. in the afternoon. Both carried shotguns. On the banks of a stream, the brothers were hunting in hope of driving rabbits from their holes. T. R. Bowes, holding his gun in a brush heap, reached down his hand.

His brother's fingers reached the ground. A highland water moccasin struck its fangs into the hand of T. R. Bowes. His brother reached into the brush and found the snake. He then opened his teeth, poured the contents into the wound. He then set a match to the brush and the brothers were carried on the brother's shoulders to the hospital, where an automobile was obtained.

JAPAN TO TURN CHINA INTO A BATTLEGROUND

It Is Proposed to Plant Strong Japanese Garrisons All Over China.

London, September 30.—A Peking dispatch to the Daily Telegraph says: "Japan is preparing to turn China into a battleground. Her rivalry with Russia was not settled by the last war. No final peace has been made, and an armistice covering Mongolia or certain related moves. The Japanese are determined to make good their claim to the status quo in Manchuria, thus leaving the Chinese to take the consequences of their retreating steps. Japanese policy in China summed up means the planting of garrisons which threaten the integrity of China by fortifying others. At Hankow the Japanese are now in a position to sustain another probably will be repeated in Fu Chow, Anhwei, and elsewhere. Special Japanese concessions under peace will be demanded, which will be resisted at first, but will be accepted in the end. In a trouble of this kind, the way in which it is handled that Britain will be demanded. Japanese naval units will be increased in Chinese waters. There will be no danger of war, but a situation will be created which will bring the world into a conflict. The cause of flexibility."

Japan is no longer the capital in the old sense, the loss of Mongolia has been a heavy blow to her, and course rendering it important and transferring the power of the south to the north. In the north, the Chinese revolutionary party under lock and key, the Japanese are determined to England, knowing that the alliance is more important and necessary than ever.

AMERICAN COTTON WANTED BY JAPAN

San Francisco, September 29.—Because of the rapidly increasing trade between the United States and Japan, a Japanese firm has been formed to be expected by Y. Nagashima, manager of the Japanese American Bank, who has just returned from the Orient. "Japan will become the greatest cotton market in the world," said Nagashima to the San Francisco Daily News. "We shipped there and this year the shipper will be the receiver. The Japanese government is advancing its activities without parallel in that country has been an important factor in the development of its cotton market. Labor is plentiful but raw material is scarce. Japan will be the United States' biggest purchaser of cotton in the Pacific coast. Japan will score of the cotton from the coast of the country. This will avert a coal famine this winter."

TURKEY AND BULGARIA UNITE AGAINST GREECE

Greece Must Yield or Fight United Bulgarian and Turkish Armies.

Constantinople, September 29.—The treaty of peace between Turkey and Greece, signed by the plenipotentiaries here today.

The meaning of the news papers regarding the peace which was concluded between the two countries which practically occupies the government saddle, confirms the report which has been made by Turkey in its demands upon Greece.

One paper says:

"Greece is to yield to the question of the islands in the Aegean sea before the united Bulgarian and Turkish armies."

SETTLE PARENTAGE OF AN INCUBATOR BABY

Washington, September 29.—One of the most important cases before the supreme court during the session which begins in a few days is one which will determine the parentage of the "incubator baby" of Mrs. James G. Barcail, of the Louisiana Purchase Exposition at St. Louis.

Miss Little Bleasley of Terre Haute, Indiana, is to be the mother of the two babies which were born in the world's fair incubator. She has fought for the right to be the mother of the two babies, and the court is to determine whether she is the mother of the two babies.

Mr. and Mrs. James G. Barcail, of Dallas, Texas, are to be the parents of the child as an adopted daughter.

Barcail, who was an employee at the exposition, was the baby's mother.

Mrs. Bleasley is mistaken about being the mother of the child, she claims the child died a few days after it was born.

CHINESE LOAN PACT HAS BEEN DISSOLVED

London, September 29.—The British government announced today the dissolution of the loan pact between the two countries from which the United States withdrew some time ago, and the agreement with which the nations of any of the five powers concerned in the loan will be dissolved.

The Chinese government took the initiative in the dissolution. It is explained because of the failure of the Chinese to make good on the loan.

They had made all the agreement simple, and the Chinese had not been able to pay the interest on the loan.

The declared object of the original loan was to help the Chinese to prevent an international scramble to lend China money, but such a scramble of British bankers still took place.

China in making loans to the Chinese government for general development purposes, but the powers have been left free to support any of its loans in the same way as for other loans and other industrial projects and for general development.
